Principles of hand fracture fixation
K-wire fixation
Arthrodesis, PIPJ Ring Finger
Surgical approaches to the metacarpals and phalanges

Principles of lag screw fixation
Lag screw fixation long oblique fracture
Principles of hand fracture management

Principles of Plating
Extra articular fractures of the metacarpals & phalanges
Neutralisation plate short oblique fracture
Dynamic compression plate

Carpo-metacarpal joint and metacarpal phalangeal articular fractures
Interphalangeal Joint articular fractures
Uni condylar fracture fixation with lag screws
Dynamic external fixator – dorsal fracture dislocation Pilon Fracture PIPJ
Case Studies
Locking plates in hand surgery
Ladder plate: Fixation proximal phalanx
Intra articular fractures
Fractures Healing
PIP Volar Locking Plate.

The Captain of the Ship
Principles of hand fracture management
Soft Tissue cover in the Hand
Fracture of the Thumb
Locking plate fixation – Rolando fracture
Complications of Hand fracture
Principles of hand fracture management
Case Studies
